

Gavin Ligthart

Work experience

Frontend Lead

MatchWornShirt | August 2023 - Now

- Built out the bidding and checkout systems, the core revenue driver behind MatchWornShirt, used by 100K+ unique users.
- Drove performance improvements and caching strategy to allow our product to scale across multiple markets.
- Manager and mentor of six engineers, focussing on both their technical and personal growth.

Frontend Developer

Label A | Amsterdam | September 2018 - July 2023

- Created user-friendly apps, websites and dashboards for clients such as Dura Vermeer, Stella, and Jobner.
- Hosted a talk about Typescript at our frontend meet-up, which was a great success.
- Co-led creating Label A's own ecosystem-React Prime. Prime is a collection of boilerplates that form the base of all of their projects.

Academy tutor & Curriculum maker

Label A | Amsterdam | October 2021 - July 2023

- Helped start new developers get their careers off the ground by providing one-on-one mentorship and guidance through the early stages of their development.
- Host team-wide workshops to create a comprehensive and solid base for developing good applications and to introduce new, cutting-edge techniques.
- Give lessons about Label A's ways of working, and explain what it takes to become a great front end developer.

Technical Lead

Active Collective | Beverwijk | November 2013 - August 2018

- Built the foundation of the award-winning PICTURE project. A tool that aims to evaluate prior decision-making in glioma surgery and radiation oncology using probability maps.
- Built multiple systems and apps for Lidl, all of which are a cornerstone of their employee branding.
- *Promoted from Frontend Developer January 2017*

Education

B.Sc Communication and Multimedia Design

Amsterdam University of Applied Sciences | 2011 - 2015
